Dear colleagues,

We are pleased to invite you to attend the Symposium on «Workplace-based Assessment: Fostering clinical competencies in pre- and postgraduate medical education». This symposium will serve as a forum for the exchange of ideas regarding "how to come to assessment for learning", "how to improve clinical teaching" and "how to improve feedback" with focus on workplace-based assessment.

Two experts from the Netherlands (Debbie Jaarsma and Els Pelgrim) who have broad theoretical and practical experiences on these issues agreed to share and discuss their findings with us.

The symposium will feature presentations (part I) and interactive workshops (part II) in order to facilitate discussion and foster collaboration among clinicians, researchers and teachers of clinical competencies in the workplace.

We are looking forward to your participation and to an exciting symposium. For more information or to register please go to our website http://aba.iml.unibe.ch/symp12 (mandatory until October 5th 2012; no registration fees).

Kind regards,

Prof. Dr. med. Christine Beyeler and the organising committee

Programme

Part I – Public Presentations

14.15 h Welcome
14.20 h Introduction
14.30 h Debbie Jaarsma, Amsterdam:
How is it possible to come to assessment for learning in addition to assessment of learning?
15.10 h Els Pelgrim, Nijmegen:
Which aspects have influence on the effectiveness of the feedback process in workplace-based assessment?
15.50 h Coffee Break

Part II – Workshops

16.10 h Parallel workshops moderated by the speakers to discuss their topics in more detail
17.00 h Sharing of workshop results in plenum
17.15 h Traditional "Zvieri" and farewell

This symposium is sponsored by the Nachwuchsförderungsprojektpool of the University of Bern / Mittelbauvereinigung der Universität Bern (MVUB).
